Math for the people, by the people.

0/0 is possible and has an answer

Canonical name	00IsPossibleAndHasAnAnswer
Date of creation	2014-08-02 19:59:17
Last modified on	2014-08-02 19:59:17
Owner	imaginary.i (1001376)
Last modified by	imaginary.i (1001376)
Numerical id	4
Author	imaginary.i (1001376)
Entry type	Result

So, I am happy to tell you that I have solved $0/0$ by means of utilizing set theory. Set Theory is a part of math dealing with sets of objects. We all know that 1*0=0 2*0=0 ... 30000*0=0 So that means that Since P(R) is the whole set of real numbers P(R)*0=0 Meaning to say, 0 divided by 0 is R, or the entire set of real numbers. That is my solution to this mysterious expression that was yet to be solved.
